Northrop Grumman is seeking current college Juniors and Seniors (regardless of age) for its highly competitive internship program. The position will be in our Enterprise Shared Services organization located in Helena, MT.

The qualified applicant will become part of the Business Application Services organization, and will work in a dynamic people focused environment where he/she will interact with users, customers, and other developers. Selected Interns will perform software engineering duties, including evaluate, install and maintain software applications. Responsibilities will also include software development and application administration.

An internship or co-op at Northrop Grumman is unique. You will learn new skills, explore our enterprise, network with experts, connect with thought leaders, and finish with a resume that opens doors. But you’ll gain something even more valuable: pride in what you’ve done. Join us and launch your career.
Qualifications

Basic Qualifications:

- Currently enrolled full-time in an accredited college/university degree program pursuing a bachelor’s degree in Computer Science, Information Systems, Engineering or related discipline
- Have completed at least sophomore year
- U.S. Citizenship required
- Applicant must be proficient in Microsoft tools or equivalent.

Preferred Qualifications:

- GPA of 3.0 or better is preferred
- Moderate experience with development technologies such as: C#, Java and/or SharePoint; database language knowledge of Oracle and/or SQL Server; and SQL programing is preferred

Northrop Grumman is committed to hiring and retaining a diverse workforce. We are proud to be an Equal Opportunity/Affirmative Action-Employer, making decisions without regard to race, color, religion, creed, sex, sexual orientation, gender identity, marital status, national origin, age, veteran status, disability, or any other protected class.
