# Interdisciplinary Option Computer Science Graduation Worksheet 2021-2022 Catalog 

Revised 3/26/2021

Name $\qquad$ Advisor $\qquad$

- This worksheet goes into effect at the beginning of Fall Semester, 2021.
- It is recommended that you utilize this worksheet in combination with your DegreeWorks worksheet.
- Keep this worksheet up to date and bring it with you each time you meet with your advisor. It will help your advisor give you better advice when you register for classes.
- Substitute courses are sometimes allowed. Normally, the substitute course column is to be used for courses transferred in from another university. However, sometimes one MSU course can be substituted for another. See your advisor for specific questions. In either case, enter the substituted course in the Substitution Course column and enter the credits in the Substitute Credits column. Your advisor must approve substitutions. Do not assume that a substitution will be allowed.
- You may not use pass/fail courses except in the unrestricted electives section.
- All course grades must be at least a C- to count towards your degree.
- If you would like to see a typical semester-by-semester schedule of classes for a Computer Science major, please check out www.montana.edu/wwwcat/programs/cs.html.
- This is a complex form and may contain a few errors. If you notice any, please notify Hunter Lloyd (hunter.lloyd@montana.edu) or Sharlyn Gunderson-Izurieta (Sharlyn.Izurieta@montana.edu).

## 2. Computer Science Elective Courses

- You must take 19 credits from the courses below.
- There are some special courses, such as CSCI or ESOF 491 that can also be used here.
- Seniors may petition to use CS graduate courses in this section.
- Non-lecture courses such as CSCI 498, Internship, and CSCI 492, Independent Study, MAY NOT be used on this page.

## 3. Minor in Field of Choice

- Complete a minor or additional major in a field outside of Computer Science.
- This section must contain at least 12 credits of coursework that is not listed elsewhere on this worksheet.
- Please meet with your Minor degree advisor regarding course requirements.

## 5. Required Science Courses

- As part of the 30 required Math and Science Courses, you must take at least 7 credits of Science electives.
- One of those courses that make up the 7 credits must have an accompanying $1+$ credit lab.
- Below are a list of approved courses that fulfill these requirements:
- BIOB 105CS, BIOB 110CS, BIOB 160, BIOB 170IN, BIOB 260, BIOH 201, BIOH 211, BIOM 210RN, BIOM 250, BIOO 220, CHMY 123, CHMY 141, CHMY 143, CHMY 151, CHMY 153, CHMY 211, ENSC 245IN, ERTH 101, ERTH 201, GEO103CS, GEO 211, NRSM 240, PHSX 220, PHSX 222, PHSX 224, PHSX 240, PHSX 242

## 6. Math and Science Elective Courses

- The Credits in Sections 4, 5 and 6 must total at least 30.
- You may use additional math courses at the 200 level or higher
- You may use additional statistics courses.
- You may use any other science courses, such as ASTR 110, with the exceptions of PHSX 103, PHSX 205, PHSX 207, and CHMY 121IN.

## 8. Unrestricted Electives

- You might need to take additional credits of elective courses to bring your credit total to 120. Add up the credit totals in the other sections and subtract from 120 to determine exactly how many unrestricted elective credits you need.
- Any university course may be used in this section if it has not been used in another section on this worksheet.
- You must accumulate at least 42 credits in courses numbered 300 or above. If you have taken courses at this level that are not listed in any other section on this worksheet, and if you need to count these courses in order to meet the 42 credit requirement, list them here.

## 9. Checklist for Graduation

Total number of credits. Must be at least 120.
$\qquad$ Total number of $300+$ level credits. Must be at least 42 .

Yes or No All course grades are at least a C-.

## 10. Graduation Application Instructions

Congratulations - you are almost finished!

Graduation Applications must be submitted by the following dates:
October $1^{\text {st }}, 2021$ for Spring Graduation 2022.
March $\mathbf{1}^{\text {st }}, \mathbf{2 0 2 2}$ for Summer or Fall Graduation 2022.

1. Schedule an appointment with your department advisor. Please plan ahead to ensure completion of materials before the graduation application deadline. Before you meet with your advisor:

- Create a "Graduation Plan" for your final semester in DegreeWorks (use this worksheet to cross-check that you have met all the requirements).

2. After your graduation plan is correct, email the School of Computing office (socinfo@montana.edu) with your name, email, degree program, advisor name, and minor(s) (if applicable). The office will then provide these details to the Certifying Officer.
3. The certifying officer will conduct an audit to ensure that your course requirements have been completed. Once the forms are audited, the Certifying Officer will email the student and put a note in Degreeworks which will unlock the application for the student.
4. The student will then apply using the Degreeworks application, and submit those details to the Registrar through the application.
5. The Registrar's Office will conduct a final audit during your final semester.
6. For any questions about the process, refer to montana.edu/registrar/Graduation.html
