

Professional Option Computer Science Graduation Worksheet 2014-2016 Semester Catalog

Revised 06/26/2014

Name _____ Advisor _____

- This worksheet goes into effect in **Fall Semester, 2014**.
- Keep this worksheet up to date and bring it with you each time you meet with your advisor. It will help your advisor give you better advice when you register for classes.
- Substitute courses are sometimes allowed. Normally, the substitute course column is to be used for courses transferred in from another university. However, sometimes one MSU course can be substituted for another. See your advisor for specific questions. In either case, enter the substituted course in the *Substitution Course* column and enter the credits in the *Substitute Credits* column. *Your advisor must initial each approved substitution.* Do not assume that a substitution will be allowed.
- You may not use pass/fail courses except in the *unrestricted electives* section.
- All course grades must be at least a C- to count towards your degree.
- If you would like to see a typical semester-by-semester schedule of classes for a Computer Science major, please check out www.montana.edu/wwwcat/programs/cs.html.
- This is a complex form and is sure to contain a few errors. If you notice any, please notify Hunter Lloyd (hunterl@cs.montana.edu).
