Company: Conveyabull, INC.
www.conveyabull.com

Type: Full Time
Hourly Range (DOE): $18-$23
Benefits: None
Hiring Timeframe: ASAP

We are seeking a LAMP developer that has experience with front-end technologies but thrives on the back-end. You will be a big part of a small team, your contributions will be immediately noticed, implemented and used. You will develop on enterprise level, and client facing web applications. You will be working in a fast paced, entrepreneurial driven environment.

Requirements:

- Solid ability to develop within a LAMP environment (Linux, Apache, MySQL, PHP)
- Basic hosting knowledge.
- Up to date on current standards and experience of HTML, CSS, and JavaScript/JQuery, and LAMP.
- Ability to cope with tight deadlines.
- Detail oriented with ability to create from inception as well as troubleshoot code.
- 3+ years of building web applications with PHP and MySQL (or similar experience)
- Experience interacting with web services.
- Good understanding of database design, writing queries, troubleshooting and optimizing queries.
- Good understanding of object-oriented design.
- Strong capacity to communicate technical subjects to non-technical people.

Bonuses:

- JavaScript
- Mobile app platform development (Apple and Android)
- Angular
- .NET experience
- Linux CLI
- Apache HTTPD
- GIT
