Forward Montana Foundation is hiring two Community Organizing Fellows for the summer season. From practice to power: learn how to build power in YOUR community! Forward Montana Foundation is a non-partisan civic engagement nonprofit that works to ensure all young people have access to the civic process and are able to make their voices heard. Students from a broad range of disciplines and people of all backgrounds are encouraged to apply!

The 12 week Community Organizing Fellowship program is designed for young people (and people young at heart!) who want to learn how to build power with and alongside their peers and work together to make lasting change in their communities while building their own unique set of skills.

Community Organizing fellows are paid $15/hr for 10 hours/week and have the opportunity to earn college credit (where applicable)! Fellows will learn the skills and knowledge needed to advocate for themselves and their community on behalf of issues they care about. Through weekly classes, immersive DEIJ workshops, on the ground voter registration and voter mobilization shifts and statewide networking opportunities, fellows will get hands-on experience into the world of community organizing.

The Summer Fellowship runs from May 23rd to August 12th
Summer 2022 Applications due by 11:59 pm on Sunday, April 24th, 2022.
